- We assume that you are already interested in our program,
(so promotion is less important at the moment; if not, please consider the video by Professor Engel
www.wiwi.uni-osnabrueck.de/studieninteressierte/information_for_international_prospective_students.html)
but still feel unsure and have a lot of questions
- We want you to ask these questions!

How to proceed

- Some warm-up questions from us to you
- Then I will start talking about these slides ...
- ... but please interrupt me asap asking your questions!
- The slides can be downloaded, so you do not have to take notes

Master of Science in Economics

Exemplary Study Plan for the start in the winter semester

(120 credits in four semesters)

Sem.

- The compulsory module “Advanced Methods in Business Administration and Economics” is taught in the winter semester. It provides advanced competencies in microeconomics and econometrics, with applications to concrete examples.
- We recommend that students take this module as soon as possible. The knowledge and the skills from this module are helpful in many other modules.

Minimum Requirements in the Elective Area

Master of Science in Economics

Exemplary Study Plan for the start in the winter semester

(120 credits in four semesters)

Sem.

- Large elective area allows students to shape their studies according to their own interests; but the following minimum requirements must be met:
 - At least 60 credits in economics and methods, of which
 - At least 30 credits in lectures and exercises, and
 - At least 10 credits in seminars
 - At least 10 credits in business administration

The most common types of modules are:

- Lectures with tutorials: usually concluded with a written exam at the end of the semester
- Seminars: usually with term paper, presentation and discussion

Master's Thesis (duration: 20 weeks)

- Requirements for starting your Master's thesis:
 - At least 60 credits from the Master's program must be successfully completed.
 - The requirements for provisional admission to the Master's program must be met. The credits for provisional admission cannot be counted towards the 60 credits mentioned above.
- A failed Master's thesis can be repeated once.

Exam Dates, Retakes and a Wildcard:

- We have two examination periods after each semester:
 - July and end of September each summer
 - February and end of March each winter
- You have three attempts to successfully complete a module (a first take and two retakes).
- Once in your course of study, you can use a wildcard to retake an exam for the third time (or to retake an exam for improving your grade).

Modules from other programs:

- A maximum of 10 credits can be completed in modules of the elective component of our Bachelor's program. (Modules for provisional admission do not count.)
- Up to 40 credits can be accredited from other Master's programs (domestic and foreign), provided that the modules are comparable.
- This allows you for example to study a semester abroad.

Please check “sogo” regularly:

- After enrolling to the program, check the webmail-service „sogo“ for emails from us or the University (login with student ID and password)
